

**Agenda First ULISSE@LSM Workshop  
30 Juin 2008**

**Session 1 : ULISSE**

Project of extension of the Laboratoire Souterrain de Modane	9:00-9:30	Fabrice Piquemal (LSM)
Acces and safety issues	9:30-9:50	Michel Zampaolo (LSM)

**Session 2 : Dark Matter**

EDELWEISS	9:55-10:15	Gilles Gerbier (CEA, Saclay )
EURECA	10:20-10:45	H. Kraus (Oxford)

**Coffee-break 10:50-11:20**

XENON	11:20-11:45	Elena Aprile (Columbia)
-------	-------------	-------------------------

**Session 3 : Neutrino Physics**

NEMO	11:50-12:10	Christine Marquet (CENBG, France)
------	-------------	-----------------------------------

**Lunch 12:15-14:00**

**Session 3 : Neutrino Physics (cont)**

SUPERNEMO	14:00-14:25	Ruben Saakyan (London)
Neutrinos from supernovae	14:30-14:50	Ioannis Giomataris (CEA, Saclay)

**Session 4 : Interdisciplinary activities**

R&D on liquid xenon detector for applied and fundamental researches	14:55-15:15	Jean-Pierre Cussonneau(Subatech, Nantes)
Soft Error Rate testing	15:20-15:40	Jean-Luc Autran (Marseille)
Environmental measurements	15:45-16:05	Fabien Arnaud (Chambery)

**Coffee break 16:10 -16:35**

Rock deformation with interferometry	16:35-16:55	Luca Crescentini (INFN, Salerno)
--------------------------------------	-------------	----------------------------------

**Session 5 : Background measurements**

Neutron background	17:00-17:20	Evgeny Yakushev(Dubna)
Gamma and Radon background	17:25-17:45	Pia Loaiza (LSM)

**Open discussion 17:50-18:30**
